i2p Pilch & Co

Hartmut PILCH

http://a2e.de/i2p

April 17, 2009

In 1999-2005, as president of the FFII, Hartmut Pilch led efforts to obtain European parliamentary majorities against software patents. Today the FFII is going its own ways while we are organising some supportive functions.

Contents

1 Our Work

We are currently working on the following:

- FFII Financial Affairs – there is urgent legacy cleanup work to do, and in doing so we will hopefully help to establish a more robust financial governance structure for the FFII

- European Patent Policy – We are looking for ways to build or support a movement for a democratic European patent system

- Freedom of Speech vs Legal Costs – We are looking for ways to reduce the burden of judicial regulation on online speech in Germany

- We are maintaining and documenting some of the data processing systems used at FFII.org, such as the FFII Database Schema and the Aktiv participation system

Some interesting info may be available only in the german version.

2 Contact us

Please write to i2p at a2e de phone 0049-89-18979927. You'll be answered by Markus NIST, CHEN Yang and Hartmut PILCH.
