**0.0.1 yesterday**

## **1 Open Letter to Members of European Parliament wrt Unitary Patent**

A group of software patent critics formulate such a letter today.  
The matter seems rather urgent.

## **2 German Constitutional Court presumes inconstitutionality of Bundestag decision on ESM**

The Euro is more important to german MPs than the German Basic Law. The law on erecting the European Stability Mechanism (ESM) is not yet drafted, but the Constitutional Court already asks the President not to sign it. Experience of previous cases completely justifies the Court's presumptions.

**2.0.2 tomorrow**
